Dissemination*

MEMORANDUM FOR: Director of Central Reference
THROUGH : Director of Intelligence Support
SUBJECT : Dissemination of CIA Intelligence to ACDA

1. It is my understanding that at the present time State (ISR) is selecting and supplying ACDA with CIA finished and raw intelligence reports. In addition, certain CIA reports are disseminated directly from CIA to ACDA at the initiative of OOR and OSI. As a consequence of this procedure, there is no place in CIA which is aware of the totality of CIA material which is being sent to ACDA. Nor is there any focal point which is in a position to ensure that CIA is, in fact, providing ACDA with the CIA material which ACDA needs, and in the quantity it can practically utilize.

2. I believe it would be desirable to eliminate ISR as a middleman, and make direct dissemination of CIA material to ACDA in accordance with ACDA's statement of needs, in the same manner as dissemination is made to USIA, IAI, and certain other non-USIB agencies. This matter has been discussed with ACDA and ISR, who have no objection to this change in present procedures.

3. I would appreciate it, therefore, if you would look into the feasibility of accomplishing such direct dissemination by OOR. I would hope, if it is feasible,

that appropriate notices would be issued by DDI and DD/S&T to ensure that any material their offices selected as of interest to ACDA would be transmitted to ACDA through OCR. We would thus have a focal point for all of our dissemination to ACDA, and would be in a position to make judgments as to the scope and nature of the support we are furnishing.

4. I note, incidentally, that DIA is now taking steps to eliminate IIR as a middleman, and to centralize in DIA dissemination of their products to ACDA.
